

# Coolant Maintenance Equipment and Supplies

Minnesota Technical Assistance Program ■ REFERENCE LIST

Appropriate coolant maintenance programs help keep operations efficient and productive. Many techniques or combinations of techniques can improve current or proposed company maintenance programs.

MnTAP maintains the following list of coolant maintenance equipment and supplies solely as

a service to Minnesota companies. This is not a complete list of available equipment, supplies or distributors and does not represent an endorsement by MnTAP. MnTAP, by providing the list, does not guarantee that the products do or do not comply with environmental and safety laws in any specific application.
